## INTRODUCING SAFER INTERNET DAY

Safer Internet Day is a global event to help everyone to think about being as safe as possible when we are online.

It is celebrated this year on 9<sup>th</sup> February.

The UN Convention on the Rights of the Child is all about ensuring the best possible childhood for every child and young person. All of the rights apply, all of the time, and this includes the time a child spends on the internet. This week's activities will include some particular focus on Articles 16 and 17, the rights to privacy and to access reliable information.

The United Kingdom Committee for UNICEF (Unicef UK) is calling for a long-term approach to ensure digital inclusion. We're asking the Department for Education to undertake a comprehensive mapping exercise to understand exactly how many children aren't online at home and why that is, and use this information to close the digital divide for good.

**RIGHTS  
RESPECTING  
SCHOOLS**
