Happy Safe Aspirations

As we come to the end of another very busy week at Daven we are beginning to think about welcoming back children in years 2, 3, 4 and 5. You should have received an email asking whether you would like your child/ children to come back to school for **some time** before the end of this term. I need numbers of children interested in this by **Tuesday 30h June at 1pm** and so I ask you that you reply to the email as soon as possible so that we can begin planning. We do not know how many days in school we will be able to offer until we know the numbers of children that are interested. I will contact all parents who have requested a place as soon as we have finalised the plan.

It has been really great to see more children this week as year 1 have returned. Those children who have not returned to school, keep sending in photos of your work for us to include in the newsletter.

Remember to keep safe, whether it's enjoying the hot weather or watching the thunderstorms!!

Sally Whitehead

Reception Class

Hello everyone. This week we have enjoyed the story of 'Zog' by Julia Donaldson. Zog has helped us to create patters, add, take-away and today we created our own dragon dance. Also, we have been learning many interesting facts about reptiles. At home Penelope has been busy washing her car and has made a fabulous rainbow using some textured paint. Keep sending your photographs in!!

Mrs Calvert

Year 1

I hope you have been enjoying the amazing weather this week!
We have been making the most of the weather at school and have been

outside identifying trees through their leaves. I have attached the leaf ID sheet to the Year 1 website if you want to take part at home. Let me know what trees you have in your garden. We have also been picking fallen leaves and creating observational drawings. Remember to still go onto RM Easi Maths, My Maths and Active Learn. There are new activities on My Maths linked to your maths work in your learning pack. This week there are activities on counting to 100, number and place value.

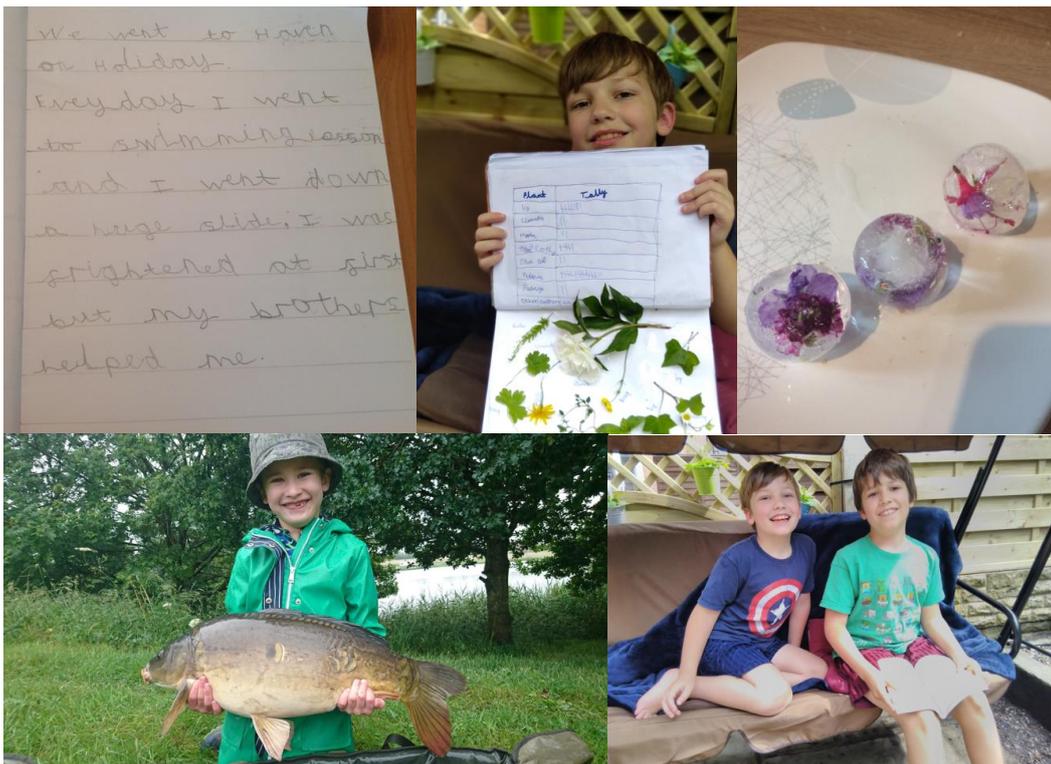

Stay safe.

Miss Henshall

Year 2

I hope you are all well and staying safe. Ruby has been doing her Geography work and has written to tell me about a holiday she went on to Haven. Great work Ruby! Thomas has been fishing with his dad. Look at the size of that fish!! CJ has been trying really hard with his work at home. Well done! Patrik has been using tally charts to look at different plants in his garden. Super! Holly has also been doing some science, making these frozen eggs. Fantastic! Well done to everyone for working hard with your learning – I love seeing all your photos each week. Take care. Mrs Edwards 😊

Year 3

Hello Year 3,

Hope everyone has been getting on ok with their packs, I haven't heard of any problems, so no news is good news!

This week we have been looking at poems, prepositions and persuasive texts. In maths the focus has been on place value and money calculations.

Hope you are all enjoying the sunshine and not forgetting to drink lots of water.

Stay Safe

Mrs Glimmerveen xx

Year 4

Everyone is continuing with their learning packs this week and are carrying on doing lots of different, interesting things at home and safely around the area.

As the national lockdown continues to ease, please remember to keep yourself and those around you safe and continue to take lots of care!

Don't forget to send me any pictures you may have of the different things you've been doing for me to put in the class virtual gallery and possibly appear here in the weekly newsletter!

Thanks everyone, stay safe! Mr Seddon

Year 5

This week year 5 have been busy with their home learning packs combined with lots of other exciting activities. I know that they have been having fun outside in the sunshine too. Reece has been growing some tomatoes, chillies, and peppers – well done Reece.

James has been making some brilliant Lego models and here are some pictures – amazing James!

Remember to email me your photos and they might make it onto the newsletter – I didn't receive many this week.

Take care,

Miss Parkinson.

Year 6

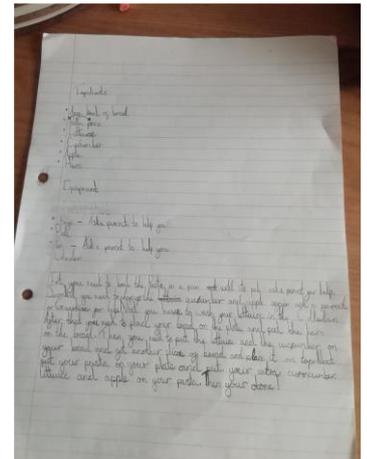

It has been a busy one in school this week – we have been setting up Year 5 and Year 6 classroom all ready for the Year 6's to come back. School will look a little different so take a look at the powerpoint I have made on our class page. Well done to those of you who have kept up the hard work at home, and to those who will continue to carry on with learning at home – you're doing a fantastic job! You will have collected your new packs of work today, there are daily lessons in there so that you will be doing exactly the same lessons to those in school.

Tyler has been busy at home this week. He has created and made a healthy meal. Looks delicious Tyler!

Next week you will have either Mrs Northwood or Miss Parkinson with you. But then after that I will be in school.

I am looking forward to seeing you all soon
Miss Spencer ☺

We just wanted to also let you know what the staff have been busy getting up to in between providing learning to you all.

They have cleared the huge allotment area on our field so that we can have lots of exciting lessons outside.

A HUGE thank you to Mrs Cowling, Mrs Aartse-Tuyn, Mrs Anderson and Miss Spencer for all the hard work you have put in so far! ☺

We are very grateful to Travis Perkins who have also donated wheelbarrows, gravel, membrane, pallets, spades and soil!

Remember to stay safe.

From all the staff team at Daven Primary School
